### «Swiss Made» quality

Our Watches are manufactured in Switzerland and bear the designation «Swiss Made». This label is highly esteemed worldwide.

«Swiss Made» embodies a concept of quality having been achieved over the years. It includes both technical quality of watches (accuracy, reliability, water- and shock-resistance) as well as aesthetic quality (elegance, genuineness of design, completion). It equally covers traditional manufacturing and new technologies.

The intrinsic value of the «Swiss Made» label, therefore, is the result of considerable efforts on the part of watch making companies being ultimately responsible for the maintenance of their high reputation.

### «Swiss Made» Qualität

Unsere Uhren werden in der Schweiz hergestellt und tragen die Bezeichnung «Swiss Made». Eine Bezeichnung, die weltweit einen exzellenten Ruf genießt.

«Swiss Made» verkörpert ein ausgereiftes Konzept, das während Jahren entwickelt und vervollkommen worden ist. Es vereint sowohl die technische Qualität von Uhren (Präzision, Zuverlässigkeit, Stoss- und Wasserresistenz) als auch die ästhetische Qualität (Eleganz, Ausführung, Originalität des Designs). Es verbindet also gleichermaßen traditionelle Uhrmacherkunst und neue Technologien.

Der echte Wert von «Swiss Made» ist das Resultat grosser Anstrengungen seitens der Uhrenhersteller, die schlussendlich für die Einhaltung ihrer hohen Qualitätsansprüche verantwortlich sind.

### Qualite «Swiss Made»

Nos montres sont produites en Suisse et portent l'appellation «Swiss Made». Une désignation qui bénéficie dans le monde entier d'une excellente réputation.

«Swiss Made» représente un concept mûri, développé et perfectionné durant de nombreuses années. Il réunit aussi bien la qualité technique des montres (précision, fiabilité, résistance aux chocs et à l'eau) que la valeur esthétique (élégance, réalisation, originalité du design). Il relie en quelque sorte l'art horloger traditionnel aux nouvelles technologies.

Mais la vraie valeur de «Swiss Made» résulte des importants efforts déployés par les fabricants suisses de montres, qui sont en fin de compte responsables du respect de leurs exigences élevées en matière de qualité.
